FCC Mail Room

Dear Chairman Wheeler:

I would like to draw your attention to the application of Gary Resnick, Mayor of Wilton Manors, Florida, to once again serve as one of the elected municipal officials on the FCC's Intergovernmental Advisory Committee.

As his Representative in Congress and the former Mayor of West Palm Beach, I can attest to Mayor Resnick's commitment to the South Florida community, both as a public servant and as an attorney in private practice. His strong character, work ethic, and ardent passion for engaging in telecommunications issues are beyond reproach. It has been an absolute privilege to work closely with Mayor Resnick over the past decade to address the most important issues affecting our constituents in Broward and Palm Beach Counties.

Mayor Resnick's passion for communications issues has permeated his entire professional life. As a member of the National League of Cities' IT and Communications Policy Steering Committee and as Chair of his law firm's communications practice, Mayor Resnick has made a tremendous impact on how municipal governments in Florida and across the country utilize communications technologies. Given the Mayor's past accomplishments, I am confident that he will continue his impressive work as a member of the IAC.

I wanted to lend my voice so that his application receives the thorough and considered review it deserves. I urge you to take a strong look at both Mayor Resnick's history of public service and his application to renew his term of service on the FCC's Intergovernmental Advisory Committee. Thank you so much for your consideration.

Sincerely,

Lois Frankel,  
Member of Congress

Washington, D.C. 20515

Dear Congresswoman Frankel:

Thank you for your letter supporting the reappointment of Wilton Manors Mayor Gary Resnick to serve on the Commission's Intergovernmental Advisory Committee (IAC).

I am pleased to let you know that Mayor Resnick has not only been selected for another two-year term, but will also serve as the Chair of the IAC. I have no doubt that his experience, expertise, and history of public service in telecommunications in Florida will serve the Commission well, as we continue to consider the range of communications issues that local, state, and Tribal governments encounter.

Sincerely,
